

# SIZE OF CHILDREN'S FOOT

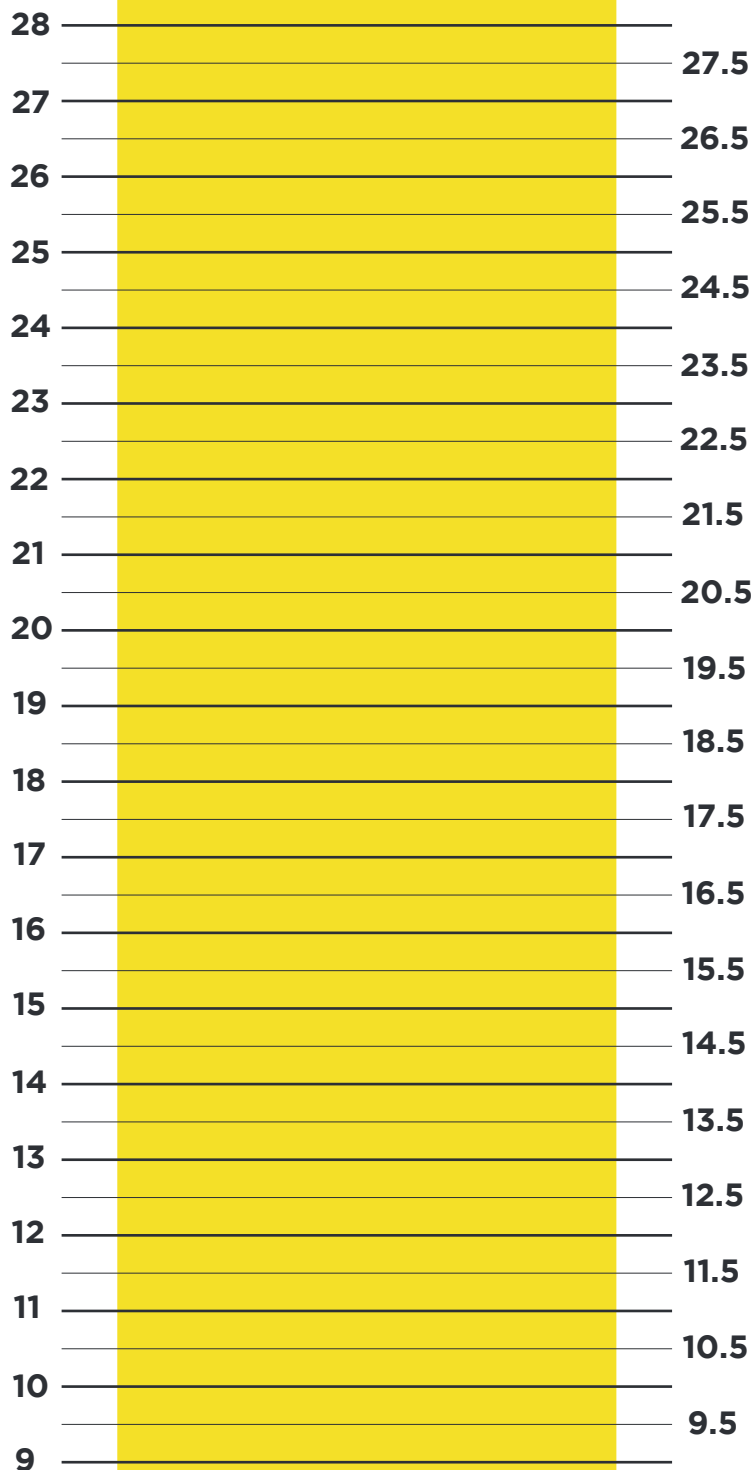

## SUGGESTION

It is advisable to order slightly above the corresponding size indicated on the scale.

For example, if in the scale the foot length of the child is 13 cm, we advise you to report that measures 13.5 cm. With this measure, we will assign the desired shoe size.

## CONFIRM THE SCALE

To ensure that the scale has not changed in print, confirm it with the help of a citizen card or a credit card. If it fit the rectangle boundaries, it was printed correctly.

Guide to using the pedometer

**1**

Place the pedometer on a flat surface.

**2**

Place the child's heel in the indicated area.

**3**

Check the appropriate size on the scale (scale in cm)
